

THE TRANSPORT ALTERNATIVE

Stylish  
Aerodynamic  
Maintenance free

# Rebel - The transport alternative

Different times, new ideas. The Rebel are an enhanced version of the highly rated trailer. They are bold, contemporary and all about the safe transport of your valuables. You may be seen with a Rebel trailer. It is an investment that will pay off for many years because they are very low maintenance. The aerodynamic design provides a high fuel economy and gives an excellent road handling and high ride comfort, even without a load.

THE REBEL  
THE TRANSPORT

SPORT ALTERNATIVE

# Rebel - Stylish - Aerodynamic -

Rebel trailers are manufactured according to a unique concept and many options are available for the different series. This allows you to customize your Rebel completely according to your own taste and functionality. In our opinion every part of your Rebel deserves your personal touch. Therefore, it is even possible to adapt the Rebel to your special colour wishes in order to create your own unique Rebel. This is why the Rebel are a very popular advertising object.

# THE REBEL

# TRANSPORT

# Maintenance free

The strong reinforced fibre glass floors and mudguards, the special light holders, the stainless steel rear portal and the hot-dip galvanized chassis render your Rebel very low maintenance.

The Rebel are aerodynamic due to the special reinforced fibre glass execution and design. The high loading capacity and low dead weight make the Rebel multifunctional and suitable for light vehicles.
